Due to the request given by the Federal Communications Commission's (Commission) August 14, 2003, Hearing Aid Compatibility (HAC) Report and Order (WT Docket No. 01-309), Sanyo Electric Co. Ltd. is submitting the following report.

Required Information:

- (1) digital wireless phones tested;
- (2) laboratory used;
- (3) test results for each phone tested;
- (4) identification of compliant phone models and ratings according to ANSI C63.19;
- (5) report on the status of product labeling;
- (6) report on outreach efforts;
- (7) information related to retail availability of compliant phones;
- (8) information related to incorporating hearing aid compatibility features into newer models of digital wireless phones;
- (9) any activities related to ANSI C63.19 or other standards work intended to promote compliance with this Order;
- (10) total numbers of compliant and non-compliant phone models offered as of the time of the report; and
- (11) any ongoing efforts for interoperability testing with hearing aid devices.

Status as of November 17, 2005:

- (1) Three CDMA cellular phones tested: model name SCP-5600 (AEZSCP-56H) , SCP-200 (AEZSCP-02H) and SCP-2300 (AEZSCP-23H) on 16-18th May, 16-17th May and 14-16th June 2005, respectively.
- (2) PCTEST Engineering Laboratory, Inc.
- (3) Test results for each phone tested:
AEZSCP-56H : 8/19/2005 Granted
AEZSCP-02H : 8/22/2005 Granted
AEZSCP-23H : 8/23/2005 Granted
- (4) Identification of compliant phone models and ratings
AEZSCP-56H: M4(RF Emissions)

HAC Report to FCC

AEZSCP-02H: M3(RF Emissions)

AEZSCP-23H: M3(RF Emissions)

(5) Concerning above three models : HAC text has been added to each online user guide for every Sprint/Nextel handset that has been granted as HAC compliant by FCC. The Sanyo SCP-200 has the M3 icon on the box and HAC text is included in the SCP-200 user guide in both hard copy in boxes at the point of sale, and soft copy is available for download on the Sprint/Nextel website. In the event that the HAC icon was not printed on the original device box, Sprint sales associates label boxes for HAC compliant handsets at their retail stores. Sprint also includes HAC documentation in hard copy inside each box at the point of sale. If there is another production run for HAC compliant devices that did not originally include the HAC icon on the device box or HAC text in the user guide, then a “running change” including HAC labeling and text will be made to boxes and user guides newly printed for the new production run.

(6) Sanyo has not been directly involved in outreach efforts. Sprint/Nextel is the primary US domestic wireless carrier offering Sanyo wireless telephone devices at this time. Sprint/Nextel is working directly with the ATIS Incubator Solutions Program 4, Hearing Aid Compatibility Incubator. They are directly involved with the working groups tasked with consumer outreach. They also have HAC outreach information available on their website, as well as documentation and training available to sales associates in their retail stores.

(7) The Sanyo SCP-200, SCP-2300, and SCP-5600 handsets have all been granted as being HAC compliant, and are all available through Sprint retail sales channel.

(8) We are currently making efforts to develop three new cellular phones (SCP-3100, SCP-8400 and SCP-2400) which will incorporate T-coil features in compliance with ANSI 63.19 standard.

(9) We are currently conducting preliminary testing for new models. After the evaluation, and the performing “M” rating tests first, and then “T” rating testing when it becomes available at the PCTEST Engineering Laboratory, Inc. next year, we will apply for an FCC grant in compliance with the U3 and U3T standard before September 2006.

(10) The number of compliant handset model: three models

SCP-5600, SCP-200, SCP-2300

The number of non-compliant handset models offered in US: seven models

SCP-7300, SCP-8200, SCP-4920, SCP-4930, SCP-7400, SCP-8300, SCP-9000

(11) Sanyo is not directly involved in any ongoing efforts for interoperability testing with hearing aid devices at this time.

If you have any question regarding the above report, please do not hesitate to ask.
